

Products Summary

Overhead crane with grab is widely used in loading goods in port, factory, workshop and power plant.

Its work duty is A6.

The lifting capacity includes the weight of the grab.

The open direction of the grab is either paralleling the girder or plumbing the girder.

Capacity		t	5								10							
Span		m	10.5	13.5	16.5	19.5	22.5	25.5	28.5	31.5	10.5	13.5	16.5	19.5	22.5	25.5	28.5	31.5
Lifting Height		m	20								18							
Work Duty			A6								A6							
Speed	Hoisting	m/ min	39.2								39.3							
	Crab Traveling		44.6								45.9							
	Trolley Traveling		93.6				113.6				112.5				101
