

YHIII type electric hoist

Characteristic

Design and manufacture in accordance with the GB standard, used for lifting the molten metal (below 10 t).

Electric hoist has double braking、 double spacing、 heat insulation plate protection function

Type	YH																			
Capacity (t)	2					3					5					10				
Hoist Height(m)	9	12	15	18	20	9	12	15	18	20	9	12	15	18	20	9	12	15	18	20
Hoist Speed(m/min)	8(2/8)															7(1.75/7)				
Travel Speed(m/min)	20																			
Track	20a-30c										25a-50b					32b-50b				
Work Duty	M6																			
Power	三相交流 AC380V 50Hz
